

# Northern California PET Imaging

## The Trusted Source For Area Physicians

Since opening its doors more than 20 years ago as the first freestanding outpatient PET center in the country, NCPIC has established itself as one of the nation's advancing centers of excellence for detecting disease at a molecular level. NCPIC is dedicated to providing the highest standard of molecular diagnostic imaging for patient management and makes it easy for physicians and their staff to utilize its PET /CT and CT imaging services.

## A Highly Specialized Medical Team

NCPIC's experienced physicians are focused and dedicated to the molecular imaging field. The rigid standards that the medical staff must meet to join the NCPIC team, ensures that all scan interpretations and reports are being submitted by some of the industry's foremost experts.

## Moving the Industry Forward

In addition to advanced technology and expertise, NCPIC is at the forefront of some of the newest research that supports the use of PET/CT in new indications and with new radiopharmaceuticals. NCPIC is also a national resource with its involvement in NIH grants and clinical trials.

**YOU HAVE A CHOICE**

Refer your patients to one of the nation's best molecular imaging centers — NCPIC.

## We Make It Easy for Referring Physicians

The NCPIC team focuses providing the highest level of service and attention to referring physicians and their staff. Once a patient is referred to NCPIC, we handle all patient questions and/or insurance issues directly. Other ways we simplify the process include:

### Scheduling

- Same day or next day scheduling
- One physical location and 6 additional mobile unit locations are available covering the Northern California region
- Saturday hours are available for patient convenience

### Physician Access

- All reports are sent via fax. Images and reports are also sent on CD
- All reports and images are available for physician access online within 24 hours
- NCPIC physicians are available to consult with referring physicians any time

### Insurance

- NCPIC contracts with most major insurance payers and handles all Medi-Cal TARs
- NCPIC also contracts with Covered California and California Health and Wellness
